Mr. Nguyễn Tuấn Minh

HR Manager

FPT Software

Ho Chi Minh

October 16, 2021

Apply to: Intern Developer position

Dear Mr. Tuan - FPTSoftware HR,

I was so pleased to see your internships openings in Hutech ITOPENDAY's website and i am eager to join FPT Software as a software intern. As a student of final year of HUTECH University, i have passion for developing productive and unique software.

The nature of my coursework has already rendered me with a good exposure to practical field. Most of the credits in the courses - i am currently pursuing - comprise of projects which involve conceiving, developing and executing workable software. In addition to being competent in windows batch scripting, i'm also proficient in NodeJS, ReactJS and Java.

An avid software engineering student, i am a quick learner, good at following instructions and always keen to gain more knowledge and practice in the world of software development. I strongly believe that my technical expertise in combination with a positive can-do attitude and willingness to learn and grow as a software engineer make me an ideal candidate and a fore runner for an internship at FPT Software.

If found suitable, please contact me via my phone number or email to communicate an interview date and time in order to enable me demonstrate my potential further and to establish the appropriateness of my profile to your internship program. Thank you for your time and consideration.

Sincerely,

Nguyễn Nhật Minh
